PROVEN AND VERIFIED

BY TROND EDVARDSEN,
CEO LCA.NO.

LIGHT LUNCH

AFTERNOON SESSION

The afternoon speeches will be dedicated to analyzing the potential and prospects of the product certification system which, through the EPD and the LCA analysis, in line with protocols such as Envision, can contribute to the achievement of the sustainability objectives set by the Commission EU.

The second part will be divided in two different sessions for debate between the participants and the speakers: one more political about the means for promoting the design and construction of green infrastructure considering the availability of tools that can measure and calculate the impact and one more technical about the use of LCA tools for infrastructure, Q&A about the demo of the LCA.no software and interaction between EPDs databases (Eco Platform Portal) and the LCA.no tool for infrastructure.

2.00 pm - 2.20 pm

LCA FOR INFRASTRUCTURE WORKS

BY STEFANO SUSANI
